

# FREMO Railroad Company Unna Division

The Route from Module to Module

## Timetable No. 12

In Effect 12:01 AM, Friday, Jan 23., 1959

**FOR THE  
GOVERNMENT OF  
EMPLOYEES ONLY  
not for the public**

Quick Guide to Basic Operating  
Procedures

This pamphlet is intended to give you the basic information you need in order to run trains under the Time Table & Train Order Control scheme in use on the FREMO meeting. It incorporates general TT&TO procedures, as well as ones specific to this layout.

## Local Morning run

### morning

**TRAIN:** Extra ... west

**CLASS:** -

**ORIGIN:** Silver Bow, after departure passenger # 1

**TERM:** Burkiewye

**max 10 cars**

Removal of cars bound for **yellow**, **green** and **brown**

1. Engine, Caboose
2. **(C)** run to Joevalley.
3. **(OS)** in Joevalley. Serve trailing point industries, i.e. cars for Southwest Produce Comp., set out or pick up cars, if any.
4. **(OS)** in Diamond Valley serve Oildealer, Stock yard and Strap yard as well as California Farm Supply. Meet with **Passenger # 2!**
5. **(OS)** in Harrisville. **Yard limit.** Optionally set out cars.
6. Burkie Siding, **Meet. Train-order?**
7. in Wilikers operate Tuckahoe Valley. *All colors!*
8. **(OS)** in Burkiewye, Switching and preparing the train for the return trip as Evening Return. Look out for Passenger # 5 und # 6.

## Quick Test

### Am Startbahnhof

All paperwork? Clearance (with Train Order) and Car Cards

Operator looks north.,

**East is right, West to the left.**

### Throwing the turnouts

Give you crew time to walk to the turnout, they can't fly!

At the prototype the train approach the first turnout, a crew man walks.

Similar at the end of the train. The rear crew man dismount. Give him a chance to throw the turnout into **normal position.**

The **bell** must work

- Arrival or departure at yard
- At street crossings or passenger platforms

**Whistle / horn** must used

- In advance the start moving,
- Approaching a street crossing or station, bridge or tunnel
- Approaching another train..

The throttle card shows the buttons. Usually F0

- light/ sound, F1- bell, F2 - Horn/Whistle

## Speed

In yard and industrial districts 10 mph, except first class trains:  
Freight 35 mph  
Passenger 50 mph

**Coupling:** Stopp half car length in front of the car, coupling with less than 4 mph.

**Uncoupling:** Use uncoupler or magnet.

**Don't touch the car. Less than ever the roof!** (At the most push / hold the coupler!)

**Before departure:** Fill the air. This takes about 5 "real" sec per car

### Throwing the turnouts

Grant the worker time to walk to the turnout, they can't fly!

**Set the turnout back to main!**
